BUILT TO

From passion comes quality.

We believe being a golf course Superintendent is a labor of love. Your love for your work motivates us in our work. That's why we take so much pride in minding every detail of our products. That's why it's company policy to treat you the way we want to be treated. And that's why, if there's ever a problem, we'll do what's necessary to make things right and fair — even if it costs us. For more than 45 years, it's been our mission to create golf course products with the highest long-term value. By forging long-term relationships and having a passion that drives quality, we believe we deliver that value to you.

On course for over 40 years — no accident.

No gimmicks. To earn a place in this catalog, every product must make your job easier, help you do it better or perform a service that makes you look good to the golfer. When describing our products, our favorite words are “long lasting,” “maintenance free,” and “dependable.” We take great pride in having grown our full line of golf course accessories, measuring each one individually against this creed.

Simple means responsive.

We believe in simplicity. Our only business is manufacturing golf course accessories. And, there is no hierarchy at Par Aide. Everyone in the company, top to bottom, is encouraged to take responsibility, offer ideas, and solve problems. For these reasons, you'll actually notice our unique ability to deliver products and solutions when you need them. Every day we go about focusing on these simple concepts — and remembering that YOU are the reason Par Aide exists. *Thank you for your business.*

Ready to earn their place on your course.

Manufacturers often propose we could resell their products but with the Par Aide name applied. Obviously, we don't work that way. We're manufacturers. We don't put our name on something if we don't add value to it. Consider these products that have earned the Par Aide name — each one attractive, functional and durable with long-term value.

THE PAR AIDE
BALL WASHER

TEE PRODUCTS

Far and away, Par Aide.

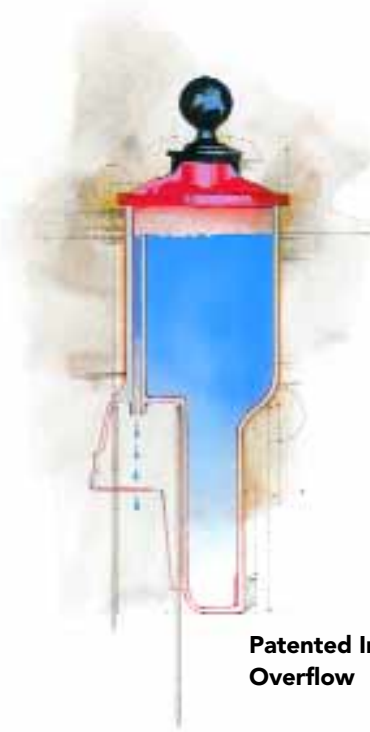

No matter which Par Aide model you choose, your decision won't be challenged. A Par Aide ball washer says golf. It says you care about quality. It tells golfers this superintendent is conscious of all the details that make a course enjoyable to play.

1. Hand assembled from the highest-quality materials.
2. Powder-coated cast aluminum body and cover, stainless steel hardware, nylon bristles set in rubber for durability.
3. Patented helical agitator assures thorough cleaning and dependability.
4. Improved integrity of powder coating because of a new pre-treatment process and the use of foam rubber gaskets between the cover and body.

Shaped like a trophy. A trophy to your good judgment.

Par Aide ball washers stand for long-term value. They offer the ability to withstand both the harsh environment of the golf course and the constant use (and occasional abuse) by golfers, day in and day out.

Ball Washer Ensemble.

These are a few of the ensembles created to make ordering easy for you. With all of these options, you can place your ensemble design where it's most needed. You may opt to put an ensemble with a Club Washer on the tee of a par 3 hole, for instance, or one with a Trash Mate® double unit on the tee following the halfway house. Just start with the combination you like and pick a color. If you don't see the combination you are looking for, simply mix and match by choosing the individual items that best fit your situation.

Spike and Shoe Cleaners.

The same attention to detail that goes into our ball washers also goes into our spike and shoe cleaners.

- Bristles made from the toughest nylon fiber available to prevent them from matting down.
- Base is made of black anodized cast aluminum, so there's no paint to chip.
- Base brush available with traditional nylon bristles, or crimped bristles that are softer and denser to clean alternative spikes. Both styles fully interchangeable.
- More important than ever for on-course use with popularity of alternative-spike shoes.

Putting Cups.

Four distinctive styles, each with the hallmarks of Par Aide products: durability, great appearance and impeccable quality. Your choices include the brightest white plastic cup in the industry, our traditional machined aluminum cup, and our patented Ever-White Cup, the one you've heard about with replaceable plastic sleeves.

1. Ever-White Cup

The patented Ever-White™ Cup has revolutionized the category by teaming an aluminum outside with a bright white plastic sleeve.

- No paint to chip, eliminating the need for stripping, sanding and painting.
- Easily replaceable sleeve stays tight in the cup during play.
- Resonates with the classic aluminum sound when the ball drops in.

1. Ever-White Cup

Patented aluminum cup complete with plastic sleeve. Meets all USGA regulations.

4. Aluminum Putting Cups

- Our classic model, it's die cast oversize, then machined down to precision dimensions to minimize "wobble" in the hole.
- Surfaces anodized and dichromated for ultimate corrosion protection.
- The cup's vertical surfaces are powder coated bright white. The bottom of the cup is not powder coated, so there's no paint to chip.

Weight: 2 lb. (0.9 kg)/each
930 6 in. (15.2 cm) Regulation Cup

5. Cup Stop

By inserting this rigid plastic disk into the bottom of the cup, the cup will not "sink" into the green once it is set. Also prevents flagsticks from "bottoming out." Fits all Par Aide cups.

Regulation Golf Flags.

Engineered to maintain their good looks despite long exposure to wind and sunlight.

- Improved steadfast colors, thanks to a patented DuPont® process.
- Stronger stitching, including bar-tacked corners and four rows of fly-hem stitching, ensures durability in high winds.
- Lightweight 200 denier nylon construction makes flags sensitive to even gentle breezes, giving golfers a better determination of wind direction.
- Tube-style and tie-style flags are available.
- Unlike heavy sailcloth flags, ours minimize premature wear on sticks and cups, and decrease the chance of flagsticks being blown out of cups.

Preparing Logos for Custom Flags:

All you have to do is provide us with high-quality art (sharp, clean, black-and-white photo stats, laser prints or other printed originals). Make sure to indicate clearly which colors go where on your design and provide us with a color mock-up or existing printed sample if at all possible. Please note that we cannot reproduce from faxes, colored art or existing samples printed on fabric. The quality of the finished job depends on the quality of the artwork and the clarity of the directions we receive from you.

THE PAR AIDE
BUNKER RAKE

RAKES &
MAINTENANCE TOOLS

Far and away, Par Aide.

We're proud to offer two of the finest bunker rakes available, the Bunker Pro® rake and the Accuform® Ace rake. Two great rakes — giving you a great choice of price, weight and functionality. Try them both in your sand to see which performs better for you.

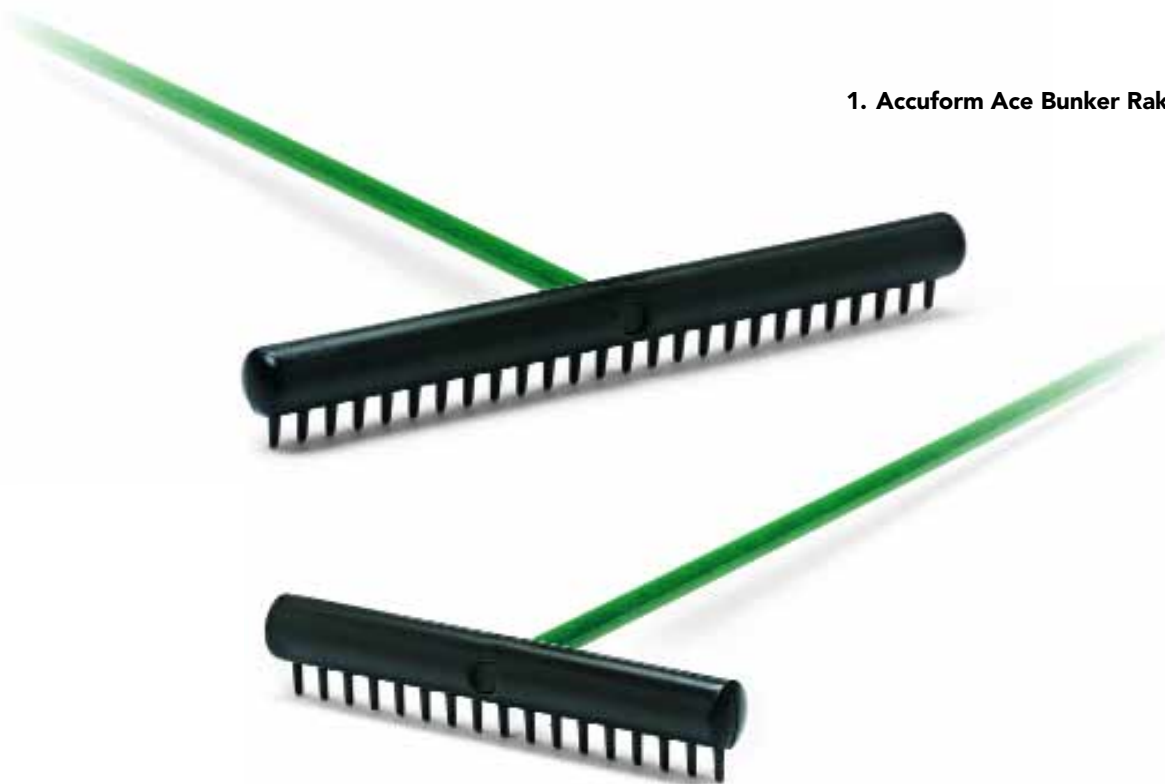

1. The Bunker Pro rake was created through our pursuit of quality and function.
2. The Accuform Ace rake was acquired so we could offer the best-known rake available.
3. Choice of head styles, weights and handle styles to match the conditions at your course.

ACCUFORM® Ace Bunker Rake.

The rake that started the revolution, the ultra-lightweight, patented Accuform Ace.

- The first rake with short-tooth tines on one side for raking and a special surface for smoothing. It eliminates bad lies in the bunker.
- One-piece head, constructed of impact-resistant high-density polyethylene.
- Available in 15 in. (38.1 cm) width and the tour-popular 25 in. (63.5 cm) width.
- The most widely recognized bunker rake in the world.
- Preferred by top superintendents worldwide.

**THE PAR AIDE
RECYCLED
PLASTICS**

**GENERAL
ACCESSORIES**

Far and away, Par Aide.

We entered the field of recycled plastic products with the intention and commitment to offer a limited number of very high-quality options. Each had to be made with our unique attention to detail and each had to meet our standards for tasteful appearance, high durability and optimum functionality.

- 1. Steel components are zinc coated and then powder coated for maximum corrosion protection.**
- 2. The highest-quality, fade-resistant recycled plastic is used.**
- 3. Stainless steel spikes are used to resist corrosion.**

Water Pro.

Everything about its design and construction says Par Aide quality.

- Double doors and a built-in locking system make the cooler easily accessible.
- Features large capacity and ample cup storage, plus an on-board trash receptacle.
- Recycled plastic wood over primed and powder-coated steel frame construction offers permanence and no warping.
- Front access to cooler gives you the flexibility to locate the water cooler where it's most needed.

Markers, Stakes and Rope.

Made of fully color-impregnated recycled plastic, they need no maintenance, they're fade resistant and they float.

- Hazard and out-of-bounds markers measure 1-1/2 in. x 1-1/2 in. (3.8 cm x 3.8 cm). The sturdy stainless steel spikes measure 5/16 in. (0.8 cm) in diameter.
- Rope stakes have same measurements as markers plus an angled slot to keep the rope in place. Allows stakes to be easily added and removed.
- Our 1/4 in. braided polypropylene rope is available in 1,000 ft. (304.8 m) spools and comes in assorted colors, including Hunter Green, custom formulated to blend with the Hunter Green rope stakes.

Contest Indicators and Proximity Markers.

Be sure you have these important accessories on hand for your next special event. Place a contest indicator on the tee to announce the contest on that hole. The proximity marker goes in the fairway or green to mark the longest drive, closest to the pin or other contest.

- Proximity Marker includes grease pen, attached by chain. Contest Indicator includes unattached grease pen.
- Choose the standard design, or customize with the logo of your course, or the event.
- Designed for easy cleanup. Simply wipe with a clean rag or towel and rotate constantly to eliminate smudging. Any household cleaner works effectively, also.
- Eliminates use of messy paper sheets as polycarbonate face allows repeated use of grease pen—and it won't come off in the rain.

**WE DON'T CUT CORNERS, SO
YOU CAN CUT PERFECT HOLES.**

**THE PAR AIDE
HOLE CUTTER**

TOOLS

Far and away, Par Aide.

The best and most popular hole cutter in the business. Components are a combination of cast aluminum and steel to maximize strength and minimize weight.

- 1. Each hole cutter is made individually, by hand.**
- 2. Hardened steel blades are heat-treated to resist rock damage. They're so strong, a high-speed drill or grinding wheel must be used for sharpening.**
- 3. Blades are dip-treated to add corrosion resistance.**
- 4. Par Aide's attention to detail assures the precision of the cutting blade.**
- 5. Choose from foot or lever extraction for plug removal.**
